

Infuse WB

STONE & GROUT SEALER

Infuse WB Stone & Grout Sealer is a highly effective water based impregnating sealer formulated to help protect your stone surfaces from water and oil born stains. This sealer provides an invisible barrier resistant to stains, while allowing the surface to properly breathe. Infuse WB is a water based flouropolymer, impregnating sealer.

All natural stone should be sealed with an impregnating sealer to protect the surface of the stone from oil and water stains. Sealing your grout stops dirt and grease from soaking in and staining the grout.

DIRECTIONS

1. Apply evenly using a brush, roller, cloth, sponge, or sprayer.
2. Buff dry any excess sealer that does not penetrate within 3 to 5 minutes with an absorbent towel or carpet bonnet.
3. Highly porous surfaces may require a second or third application to give full protection.
4. Wait a minimum of 1 hour between applications.

Cure Time: May be opened for foot traffic in 2 hours. Achieves a full cure in 24 hours.

Limitations: Surface temperature must be between 50°–90° F (10°–32° C). Will not prevent etching from acid or caustic chemicals. May damage non-recommended surfaces - protect from contact. May darken some materials.

What it does: Protect your stone and grout from Water and Oil born staining.

Use On: All natural stone surfaces and cement based grout. For indoor and exterior use. Always test a small area to check for desired outcome.
